Instructions

1. Score the 14.8 x 21 cm Thick Basic White at 10.5 cm. Adhere the Expressions in Ink DSP 10 x 14.3 cm to front of card ensuring the adhesive is not in the middle, only outer edges. Using the 7cm Circle die cut through the DSP and Thick Basic White. Set both cut out circles aside.
2. Score the 14.5 x 20.4 cm (along the 20.4 edge) at 10.2 and 5.1 cm burnish. Have the two folds on the right and adhere left hand side to base of thick Basic White. Using the front of the card circle to guide the placement, adhere the DSP Circle to the inside of card.
3. With the White Circle Stamp, stamp the large flower by inking up with Pale Papaya and daubing the edges and the middle with Polished Pink. Stamp the centre piece in Pale Papaya. Adhere this to the 7.5cm circle cut out of Gold Foil.
4. Also cut out from the Gold Foil the Large leaf from the Artistic Dies.
5. On Basic White Card stock, stamp the smaller flower once in Polished pink and once in Pale Papaya. Stamp the double leaves in just Jade x 3 and die cut these out. Scrunch the flowers and leaves to give the texture. Stamp Happy Birthday in Just Jade and cut with scissors.
6. Adhere Gold leaf on the front of card, place Polished Pink flower on front with Dimensionals and adhere leaves under flower as desired.
7. Adhere 2 x DSP strips 4.5 x 14.3 cm to panels. Using the circle as a guide, adhere Gold circle with stamped large flower to the inside outer panel so when card is closed and looking through the outside circle, this can be seen evenly. Place Pale Papaya Flower on Dimensionals and adhere to bottom right of gold circle and adhere leaves.
8. On Dimensionals, adhere Birthday Polished Pink Flower and Happy to the inside Large flower.
9. Adhere Bumble bee and gems to front as desired.
10. Stamp your envelope as desired.
